Duties of the Hurricane Specialist Unit

(Unit was officially established in 1969 by NHC Director Dr. Robert Simpson)

- Maintain a continuous watch on tropical cyclones and areas of disturbed weather within the North Atlantic and eastern North Pacific basins.
- Prepare and issue analyses and forecasts in the form of text advisories and graphical products.
- Issue coastal tropical cyclone watches and warnings for the United States and its Caribbean territories.
- Provide watch and warning recommendations to other World Meteorological Organization Region IV meteorological services.
- Conduct an extensive outreach and education program and train U.S. emergency managers and representatives from many other countries affected by tropical cyclones.
- Conduct and document post-storm analyses.
- Conduct applied research.
